PROVES PROFITABLE—Jim Bumpas, manager of the Production Credit Association, Comanche, is shown with "Brooksie", 25-year-old Hereford cow. Brooksie was calved in April, 1933, and was given to Mrs. Bumpas by her mother, Mrs. Ruth Cunningham, in 1956. During her life span, Brooksie has brought 21 calves and has failed to calve only twice. Accurate records have no been kept by Mr. Bumpas on the actual income from all her calves, but taking an average of 65, he estimates her total calf sales at \$1,365. When questioned on what he attributed Brooksie's long life to, Mr. Bumpas says that he is convinced that had she not been on a PCA mortgage that she would have died long ago. Brooksie, still going strong, is shown "gumming" some cake that Mr. Bumpas has just handed her. Here is a definite example of profits in beef cattle and longevity.

PARKING METERS TO BE INSTALLED HERE SOON

Parking meters are to be installed in the City of Comanche—as the City Council approved the measure at a regular meeting Monday night.

The meters have been ordered from the Car-Park-Meter, Inc., Cincinnati, Ohio, and are due to be ready for installation here on or about November 10.

Three hundred meters will be installed—including many double meters. Loading zones of local merchants are to be honored—and no meters are to be installed around the inside circle of the courthouse area.

Meters are to be installed elsewhere on the square, and one block off the square in all directions. The meters will be built to handle nickels for one-hour parking, pennies for 12 minutes.

City Councilman Joe Waring explains that the meters are to be installed to help alleviate the congestion of traffic on the State and Federal highways crossing the Comanche Square—as well as to help solve the parking problem for retail shoppers.

A poll was conducted among the merchants and citizens—and the results showed those contacted favored the installation of the meters by a 4 to 1 ratio.

Parking in front of the banks and post office will be limited to 12 minutes—for which a penny will pay the charge.

T-V CABLE NEAR COMPLETION; FIRST PICTURE NEXT WEEK

Construction crews have now completed the laying of trunk lines for the new Community Television Service for Comanche—and work is now underway, in laying the feeder lines to various sections of town.

"We hope to attach the first television sets within the week—and bring in the picture," says Charles F. Tabor, Hillsboro, who is organizing this new service here.

The four 80-foot poles, complete with the latest type antenna, and most modern of electronic devices is now complete—and is located on Reservoir Hill, in the northwest part of Comanche.

Mr. Tabor explains that there will be four channels received under the new set-up—representing all major networks—Channels 4, 5, 8, and 11, and "we are hoping to bring to Comanche for the first time city-like type of television reception."

Headquarters for this new service have been set up at the Chamber of Commerce office here. Connection fee to the cable service is \$30, with the monthly service rate at \$8.

Local television dealers are co-operating by paying the connecting fee of purchasers of new TV sets, bought during the month of October.

"No antennas or towers are needed by subscribers to our service," says Mr. Tabor, explaining that he believes that television viewers of the area will be surprised and pleased with the improved type of TV picture, which will be brought to the area.

First connections will be made to Comanche television dealers, whereby interested persons can see the type of picture to expect.

Last of the electronic equipment is now on its way to Comanche from manufacturers in Pennsylvania, and is due to arrive here by the week-end.

All sustaining members are urged to attend meet our president and enjoy a free meal prepared by the club.

President Guthrie will not make any speeches, say the Jaycees, but will be introduced and asked to say a few words.

Roy Brannan, Jr., local Jaycee president, states that it is a rare occasion for the state president to pay our club a visit as there is a new ruling whereby the president makes only two visits per year to each region.

This is to be one of the few completely social events of the year, reminds the Jaycees, who urge all sustaining and active members to be present.

The first part of October is also the time to pay the third quarter on your declaration of income taxes, if you have not already paid this. This payment is usually made by check and mailed to the Internal Revenue Department at Dallas.

October is also the month for business firms to make their quarterly report and payment of Income Taxes and Social Security Taxes withheld from employees.

Every man may expect defeat once in a while, but it is the ability to lose gracefully and rebound after each defeat that counts. This applies to all phases of life, whether in business, athletics, or any other worthy cause.

The reason some people do not succeed any better, is that they take life sometimes too seriously. A saving sense of humor when nothing else will win is an asset.

Ex-President Coolidge once said, "Men of humor are always, to some extent, men of genius; wits are rarely so; although a man of genius, may, among other gifts, possess wit, as Shakespeare did."

Former President Woodrow Wilson was a college president and a Presbyterian lay preacher, and we sometimes think of him as an aristocrat, yet he believed in getting his inspiration from the grass-roots group.

Wilson is credited with saying, "I would rather hear what men are talking about on the train, and in the shops and country stores, and by the firesides, than to hear anything else; because I know that I need guidance and I know I could get it there."

Another former president, F. D. Roosevelt, said, "I believe that the majority of plain people will make fewer mistakes, day in and day out, in governing themselves, than any class of men will make in trying to govern them."

"The popularity of a president declines when congress is in session and increases when it adjourns," said Grover Cleveland, who added, "But a president finds out how mean and inefficient he is, when he runs for reelection and the opposition is

speaking."

Cleveland is the only man who ever served a split-term as president. He served one term and was defeated by Benjamin Harrison, but was elected for a second term four years later.

Bible Thought: "He that saith, I know Him and keepeth not His commandments, is a liar and the truth is not in him."—John 1:4

Dr. C. C. Klingman and former County Judge O. E. Rippetoe were elected honorary members of the Comanche Lions Club for life at the last meeting of the club.

Dr. Klingman was a charter member of the Lions Club when it was organized in 1924. He was at that time pastor of the Central Christian Church here and a member of the high school faculty. He recently retired from the active ministry and has moved back to Comanche from Wiley, when he had been pastor for five years.

Judge Rippetoe, who now is a salesman for Kirkland's Bargain Store, was Commissioner of Precinct No. 4, before he became County Judge about 20 years ago. He was reared in the Round Grove community where he engaged in farming.

Judge Rippetoe was one of the four brothers who made up the Rippetoe Quartet, which for years was well known throughout Texas. Two of the brothers are now Baptist ministers.

The \$6,000 needed to secure a garment factory for Gorman, has been raised, according to The Gorman Progress. The Gorman Business Men's Club gave \$1,000 of this amount and the women of the Gorman Study Club gave \$200. Higginbotham's is furnishing the building.

Brady has given up the idea of constructing a huge lake for that city at a cost of \$2 million. The water committee reported the two million dollar cost would mean a debt of \$4,000 for every man, woman and child in Brady. "A too big a bite to chew off."

The proposed lake was not only to furnish ample water for Brady's expected industrial ex-

pansion, but was to prevent future floods at Brady.

The Brady committee is not giving up, but is to consider new plans for a lake not so costly.

The Brady Chamber of Commerce now has 225 members with a budget of \$5,000. A drive is on to get 175 new members and raise the budget to \$9,000.

The population of Erath County is now 18,000 as compared to 32,000 forty-five years ago, says the Stephenville Empire. The population of Stephenville, however, continues to grow. About half the people of Erath County live in that city.

"The chances are that there is not much that we can do about the decrease of our rural population," says Rufus Higgs, Stephenville publisher, a fact which he hates to admit.

The same conditions prevail in most every rural section of Texas, with the exception of the areas near the big cities.

Our farms are larger, and in many cases, are better than in former years. Before the machine age arrived and tractors came to replace horses and mules, there were often two houses on every quarter-section of land, whereas, now, there is on the average about one house to every section.

Because of this consolidation, the number of individual land owners has decreased to about one-half.

Despite this consolidation, rural life is on a much higher plane than it was in the old days. You often can see \$20,000 and \$30,000 homes where \$2,000 and \$4,000 homes once stood.

These homes now have almost every convenience that is to be found in the urban homes. Their children have the same school advantages as do the city children and they generally are among the leaders in the consolidated schools.

Where land was selling at \$10 to \$40 per acre a quarter of a century ago, it is now bringing from \$40 to \$100 per acre in Comanche County.

One real estate dealer said last week that the average price of land in Comanche County is about \$70 per acre. He said he sold last week a 79-acre unimproved farm, except for fence and a well, for \$75 per acre. It was located, however, on the Fort Worth Highway.

what he wants to point out is that we are not likely to increase our rural population much in the next 20 years and we will have to fight to hold what we have.

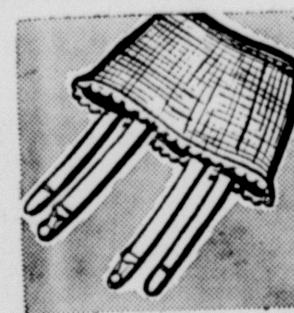

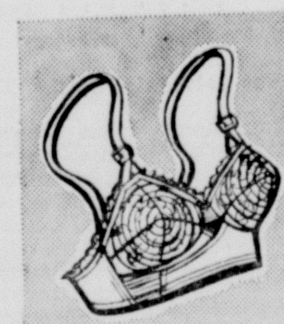

However, there is one thing we

Livestock and poultry require plenty of water no matter how low the temperature. To insure a constant supply of water—even below zero—use a heat lamp to provide running water. Between the pump and the outlets use a modern, economical heating cable. TP&L Farm Service Advisors will be happy to assist you with these installations in order that you will have plenty of running water during winter months.

Mrs. Brent Waldrop Honored Recently With Tea Shower

Mrs. Brent Waldrop, the former Miss Joyce McNutt, was honored with a tea-shower Saturday afternoon, September 13, at the home of Mrs. C. B. Baxter. Co-hostesses were Mesdames Cecil Houck, George Willis and James Slider. Guests called from 3:00 until 5 p.m.

Mrs. Baxter received the guests at the door and presented them to the honoree, her mother, Mrs. Lester McNutt, and the bridegroom's grandmother, Mrs. K. M. Mewborn. Mrs. Mewborn registered the guests in the bride's book.

The bride's book was placed on a table covered with a white cloth and decorated with a corsage of white flowers tied with pink streamers with small knots centered with pink buds.

The refreshment table was covered with a white maderia cloth and centered with an arrangement of white gladioli in a pink crystal container. Pink napkins were used to carry out the bride's chosen colors of pink and white. Punch, dainty sandwiches, sand tarts, cookies, and nuts were served by Mrs. Paul Patton of Gustine, and Mrs. Estelle McNutt.

Assisting in the dining room were Janie Patton, Dina Baxter, and Glenda Houck.

The lovely array of gifts was shown by Miss Sue McGlothlin, Mrs. Jack King, and Miss Lou Ellen Durham.

Mr. and Mrs. Waldrop are now at home in Beaumont.

State Draft Quota 556 For November

AUSTIN, Sept. 19.—The state quota for Texas draft boards in November calls for 556 men, Colonel Morris S. Schwartz, state Selective Service director, said Friday.

The state's November call of 556 compares with a quota of 564 for October, already announced. The November call is the state's share of a national quota of 11,000 men, all for the Army.

The state director of Selective Service also announced that 1,750 men were scheduled to take pre-induction mental and physical examinations in November.

Local board quotas for the November induction and pre-induction examinations are scheduled to be mailed by state Selective Service headquarters about October 1.

The November quota will be filled with men who are at least 22 years old on November 1, with the exceptions of volunteers or delinquents, who may be younger.

It is possible for some reservists and National Guardsmen to be called up by draft boards if they fail to participate satisfactorily in their units, the state draft director said.

He's No Blockhead About Rockets

TV star Paul Winchell is afraid his wooden-headed pal, Jerry Mahoney, might use this homemade explosive for a trip to the moon. "A false alarm," replies Jerry calmly. "I'm an honorary Junior Fire Marshal and like me, the rocket is a dummy, too. It's just a reminder to boys and girls that these homemade gadgets are a real menace." The nation's Junior Fire Marshals, four-million strong, begin their annual campaign to combat fire hazards during National Fire Prevention Week (Oct. 5-11). This year-round educational program is sponsored as a public service by the Hartford Fire Insurance Company in schools all over the country. Paul Winchell and his quick-witted friend Jerry will be one of this season's standout comedy attractions on ABC-TV.

Teachers Sorority Holds Opening Meeting Sept. 18

A tea honoring new members and prospective members was given by the Stephenville Branch of The American Association of University Women in the Robin Room of Tarleton College Dining Hall at 6:30 Thursday evening, September 18.

Tea dainties were served from a table centered by a large arrangement of pink fall flowers. Pink tea was served from one end of the tea table by Mrs. J. Burns Smith president of the local branch. Vases of Queen's Wreath and fern were placed on the quartet tables at which the guests were seated. Another large floral arrangement adorned an occasional table placed in the dining room. A pink banner proclaimed the 25th anniversary of the association and the theme was further carried out by tea napkins imprinted with silver and placed on the corner of the tea table where the inscription "25 years of Stephenville AAUW" could be easily seen.

Mrs. J. Burns Smith opened the meeting by welcoming those present and presenting Mrs. Harvey Belcher, chairman of the

Membership Committee, who presided over the program.

Dr. Don Morton, Head of the Department of Music of Tarleton College, was introduced by Mrs. Belcher and brought the special music for the entertainment.

Dr. Morton first presented his trio composed of Miss Ann Hefington, Miss Priscilla Morton and Miss Marylin Ferguson singing "Autumn Leaves", "Speak Low" and "Carolina". Dr. Morton accompanied the trio at the piano.

Lewis Woodward, voice teacher at Tarleton College, was next presented by Dr. Morton. Mr. Woodward sang "Thine Alone" from Elleen, by Victor Herbert, from Elleen, by Victor Herbert. He was accompanied by Mrs. Woodward at the piano.

BURN PEANUT HULLS? Yes, we are. Our cost of grinding, labor and bags is \$4.00 to \$4.50 per ton. With so much roughage in the country, there simply is not enough feeding going on to use all of our peanut hulls. Therefore, we are installing a 45-foot high burner. We have some good ground peanut hulls in our warehouses which we are selling at our cost of \$4.50 per ton. After these are gone, the price will be considerably higher. Why not store up a good supply now? Did you know that while peanut hulls contain a big 3.2% digestible protein (not crude), cottonseed hulls have only 0.1% and Johnson grass hay has only 0.1%? 2.9%; prairie hay 2.6%; oat straw 0.9% and ground corn cobs 0.4%. These figures taken from Morrisons Feed & Feeding book.—Durham Peanut Co. (14-17c)

Braves Down
Brownwood 14-6

Coach Ben Jackson's Braves
won their second game in a row,
and remain undefeated, as they
beat the Brownwood Freshmen
14-6 in a hard fought, well play-
ed game here last Thursday
night.

Richard Brooks, quarterback
for the Indian B-teams, scored
the first touchdown on a roll-
out around end Harold Perkins.
Bet halfback, tallied from 15
yards out for the Braves second
score.

Brownwood fielded a sharp
passing attack that was a con-
tinuous threat to the Braves, but
sharp defensive work held the
visitors to one six-pointer.

The future Indians looked
sharp behind the helm of Rich-
ard Brooks, who was dropped
down from the "A" squad to get
more experience under same
conditions, the remainder of the
season.

Johnston, Robertson, Swindle
and company all looked good in
defensive play for the Braves.

The Braves host the Goldth-
waite B-teams here Thursday
night, October 4. Kickoff is at
7:30 o'clock.

Killeen Smacks Indians 38-10

The Comanche Indians fell to the powerful Killeen Kangaroos, one of the top ranked AAA teams of the state, 38-10, Friday night in Killeen—in a game played in a steady downpour.

Big John Cook, 185 pound Kangaroo fullback, scored all five of the touchdowns for the victors. The Indians scored a safety, counting for two points, in the first half and in the third period, when quarterback Lewis Sims went over on a roll out from four out.

Comanche, playing much improved ball over their last week's outing against Cisco, made a some deep penetrations—with one drive being stopped on the Kangaroo 3 yard marker.

"Too many mistakes killed us again," says Bill Scoggins, head coach of the Indians, adding that the boys just couldn't seem to hang on to the football.

Comanche's big line was much improved against the potent Killeen attack, and stopped the Roos cold on several occasions—but the long runs of Fullback Cook, proved to be the undoings of the locals.

With Sims and Swearingin sharing duties at the helm of Comanche's passing attack, the Indians, despite the wet ball and wetter field, came up with several nice passing gains. One pass, Sims to End L. G. Holland, set up the Indians only touchdown—and on another occasion, a perfect pass was dropped in the end zone.

Halfback Kenneth Henry was the Indians' chief offensive threat and ran hard throughout the game. The defensive of Henry and John Gleaton, as linebackers, was outstanding.

Big Delbert Brewster, 225 pound tackle who was shifted to center for the Killeen game, found the new position to his liking, and turned in a good performance.

Killeen, in its two outings this year prior to the Indians game, had won over AAAA Brackenridge of San Antonio, 44-0 and over Lampasas 31-0; so the Indians were the first team of the year to score against the Kangaroos.

et was fashioned with long sleeves forming a point at the wrist. A tier of pearls and sequins held the fingertip veil. She carried a white Bible topped with a bouquet of pale pink sweetheart rosebuds.

A reception immediately followed the ceremony. Norma Wilcoxson, sister of the bridegroom, was in charge of the bride's book. Serving cake and punch were Mrs. J. L. Newhouse and Mrs. A. H. Newhouse.

By H. M. O'Brien, Jr.

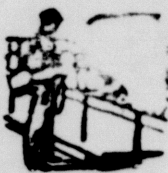

The Community was favored with a special treat on the 4th Tuesday night, our regular entertainment night, when Mrs. Porter Franks brought a book review "Please Don't Eat The Daisies" by Jean Kerr. Those of you who have heard Mrs. Franks give a review are familiar with her remarkable technique of, for the purpose of the story, identifying herself with the writer so that the story she tells seems such a very personal thing.

There was a slight mix-up on our planned entertainment with the end results that Bill Evans, Claud Jones, Wayland Evans, Dan Vineyard and Jack Martin, all coming dressed as ladies if I may use the term loosely, and the rest of the men came in conventional attire. Perhaps it was best we did not all come all dressed for the party, for five sad sacks in sacks sitting just in front of Mrs. Franks was surely enough to distract anyone, though it didn't seem to bother her a bit; in fact, she said to begin with that her review of the problems of raising a family of four boys would be for the special edification of the five ladies sitting on the front row.

Frankly, Mrs. Franks, I didn't get quite as much out of your review as I should as our problem is raising girls, not boys, and I'm sure you'll agree that's a problem. While Lucille was keeping our Becky reasonably quiet I was attempting with less success to keep Christy, age five, and Susan, age three corralled, but their tiny, dainty feet going Clomp, Clomp across the floor, or even banging on the benches can make more noise than a horse race on concrete. I thought of gently banging their little heads together, but that makes such a loud clang, I thought it best to just take them outside and let them run hog-wild, while I listened from the door, but that didn't work too well either for now their tiny little feet were clomping on the concrete porch.

After the review, Mrs. Franks graciously consented to have her picture taken surrounded by the beaming beauties, and mercifully enough, Mrs. Franks can make any picture look good, even one with such a background as this. As to the fashion show itself, all reporter can afford to report is that these fashions were the latest Paris has to offer—though that of Jack Martin's was about 30 years late. For those who are interested in further details—and I hope there are none—pictures of the five "ladies" will be available.

able, though one may be permitted to hope the negatives were destroyed.

In conclusion let me say this reporter is only attempting to call them as he sees them, but after this write up he may not be able to see them any more, so let me hastily add the evening was all in fun, every body seemed to have a good time, and actually being dressed as ladies may have been an improvement over how those boys look anyway.

2nd and 4th Tuesday nights see you at Soda — I hope.

...the fall of the year; al-
...with Comanche County
...as the biggest peanut-
...county in Texas, much
...farm money still comes
...autumn months.

...County in 1957

planted 44,645 acres of land to
peanuts and harvested 41,715.6
acres.

The yield in 1957 was 15.1
bushels per acre for a total of
632,212 bushels.

These peanuts, figured at an
average of \$3 per bushel, sold
for \$1,896,636, not counting the
hay.

The peanut crop this year
promises to be much better than
last year, the yield depending

somewhat on the weather we
have for harvesting.

With most any kind of luck,
however, the revenue from pea-
nuts should be twice that of last

The cotton crop, according to
Herman Rauhut, ginner and an
authority on cotton, should be
as good or better than that of
last year.

Comanche County now is one
of the leading dairy counties of
Texas and this provides an an-
nual income of more than \$2
million dollars, and the money
comes in every week of the year.

While not many chickens and
turkeys are raised on each farm
in the county today, as was the
custom of the past, there is an
increasing number of large poul-
try farms in the county and
trade territory, including several
large turkey farms. This source
of cash, while not so widely dis-
tributed among the different
families, is perhaps greater than
ever before.

Probably the greatest increase
in cash income today, is from
government payments of one kind
or another, which amount to
thousands of dollars each month.

These include more than a thousand
Old Age Assistance monthly
checks; about the same number
of Social Security checks; a large
number of military pension pay-
ments; in addition to salaries
paid our city, county, district,
state and federal officials.

School teachers of the coun-
ty, who number 102, are now
paid an average of more than
\$4,000 each per year, as com-
pared to an average of about
\$600 a quarter of a century ago.

Altogether, despite the decrease
of population in the county, bank
deposits of the county are high-
er than ever before. The average
deposits in all banks of Com-
anche County during 1957 was
\$7,361,000, as compared to \$1-
333,984.70 in 1936.

This shows a big increase in
deposits per capita even allow-
ing for the decrease in the buy-
ing power of the dollar.

The scale of living has more
than doubled in Comanche Coun-
ty during the past 25 years.

We have paved highways, and
farm-to-market roads in almost
every direction; good means of
transportation, with a car in al-
most every garage and many

with two cars.

We have a well planned pro-
gram of diversified farming; lots
of beef cattle on our ranges.
Much of what was once wasted
pasture land, has been convert-
ed into good grazing land by
scientific brush and weed con-
trol.

We have many other things
we can well be proud of in the
way of agricultural advantages.

It is true we do not have as
many fruit trees and orchards as
we once had, but we still have
the soil and climate to produce
that fruit if the market ever
gets high enough to justify the
labor and investment.

Every child in Comanche
County has the privilege of at-
tending a 9-months fully accre-
dited school, as compared to the
old rural schools of 4 to 6
months with low salaries teach-
ers, and with little school equip-
ment and no school buses.

Last week, The Comanche
Chief carried the attendance re-
cord of 41 Sunday Schools, all
located in Comanche County ex-
cept three, and these just over
the border.

Most all Sunday Schools are
taught in modern church build-
ings with good equipment; some
of them much better than the
town churches of a quarter cen-
tury ago.

The Sunday School attendance
listed was 2,322 and did not in-
clude a number of churches in
the county which would run the
total close to 3,000; all of which
speaks well of our county.

Many churches in Comanche
County at this time are enjoy-
ing their greatest attendance in
history, not only in Sunday
School, but in church services.

Comanche business firms are
now matching many prices with
those of the big cities, especially
in the grocery departments, as
you can see by comparing prices
as found advertised in The Chief
with those in the big city daily
papers.

Our drygoods stores are carry-
ing better and a greater variety
of goods, and would carry even
more, if we would all do as much
of our buying at home as possi-
ble.

Rufus Higgs says, "In our en-
thusiasm for this section of Tex-
as, we are sometimes overwhelm-

ed. Although fewer people live
here than in the past, the towns
are growing and the country is
coming back as fast as any part
of Texas where there is not an
oil boom or some other special
attraction.

All Comanche needs is a few
good breaks; a few more in-
dustries of the right kind; and a
few more god citizens, who are
figuring on moving somewhere,
and who would be glad to locate
in Comanche, if we would only
tell them about our town and
community.

One thing that many of us fail
to do, including ourselves, and
that is to extend a warm wel-
come to any and every family
that moves into Comanche town
or county. There is nothing like
good friendship and a good job,
or business to tie people to the
community in which they live.
We really believe that friendship
amounts to as much as money
in tying a person to a communi-
ty.

Higgs, who always has a good
word for Comanche, we guess
because his wife is a native
Comanchean, says Comanche,
Eastland, Hamilton, Hood, Palo
Pinto and Parker Counties are
all making rapid strides, just like
Erath. Land values in all these
counties are unbelievably high,
and are still going up.

Bill Stephens, a native of Co-
manche, who now lives in Stig-
ler, Oklahoma, often comes back
here to visit his parents, Mr. and
Mrs. Jack Stephens.

Bill says he just does not un-
derstand why the values of land
continues to advance in Coman-
che County even during a 7-year
drouth. Stephens comes back to
Comanche, however, when he
